Canard Aerospace Corporation
pauldenkmann@canardaero.com

Dear Canard Aerospace Corporation:

The Aircraft Evaluation Group (AEG) has reviewed your request for Supplemental Type Certificate (STC) relief that may be included in an operator's FAA approved MEL. The AEG finds your relief submission allowable as documented in the relief section of this letter. This relief is valid when an operator installs the listed STC on an aircraft that is listed in the Aircraft Model List (AML) below. No other application of this relief is allowed. The STC holder must contact the AEG when the STC is amended, revised or revoked.

Operators may use this relief letter to incorporate the relief listed below into their Minimum Equipment List (MEL) upon publication of this letter and in accordance with the MEL approval process in FAA Order 8900.1. The relief granted remains valid indefinitely with possession of this letter unless the relief is specifically revoked or revised by the Administrator.

STC Applicant	Canard Aerospace Corporation
STC Number	ST04380CH
STC Description	Installation of Aircraft Information Server and Wireless LAN System in accordance with Canard Aerospace Corporation (CAC) Document Control Drawing, Document No. 40207, Rev G, dated March 21, 2019, or later FAA approved revision.
Aircraft Model List	B767-200
	B767-300
	B767-300F
	B767-400

Sincerely,

Dale Bosselmann
FOEB Chair,
Aircraft Evaluation Group

Approved STC Relief

System	Item	Category	Installed	Required	Remarks-Exceptions
46	Terminal Wireless LAN Unit	D	1	0
