HIGHLIGHTS OF CHANGE

Effective above date, the Model 4000 Master Minimum Equipment List has been revised. The following are the changes for **Revision 2** to the Model 4000 MMEL.

	<p>Replace Definitions with reference to PL-25 to allow each MEL user to include current definitions in accordance with PL-70.</p> <p>Replace Preamble with reference statement to allow a single MMEL document to be used by both Certificate Holders and Part 91 Operators.</p>
21-20-4	Revise Remarks to include AFM Hot Weather Limitations from Rev.1a
21-20-5	Revise Remarks to include AFM Hot Weather Limitations from Rev.1a
21-50-4	Revise Remarks to include AFM Hot Weather Limitations from Rev.1a
21-50-4-1	Revise Remarks to include AFM Hot Weather Limitations from Rev.1a
21-50-4-2	Revise Remarks to include AFM Hot Weather Limitations from Rev.1a
21-50-4-3	Revise Remarks to include AFM Hot Weather Limitations from Rev.1a
21-50-4-4	Revise Remarks to include AFM Hot Weather Limitations from Rev.1a
21-60-2	Revise Remarks to include AFM Hot Weather Limitations from Rev.1a
21-60-3	Revise Remarks to include AFM Hot Weather Limitations from Rev.1a
21-60-4	Revise Remarks to include AFM Hot Weather Limitations from Rev.1a
21-60-5	Revise Remarks to include AFM Hot Weather Limitations from Rev.1a
22-50-3	Number required 1 to account for autothrottle functionality from Rev.1a
23-00-1	Change CVR relief item to CAS Message and interface PL-029. Because of CAS Message format separate relief for Independent Power Source is NA.
23-10-2	Updated HF Comm. relief IAW PL-106.
23-50-2	Update Hand Microphone relief IAW PL-058.
23-50-3	Update Headset Earphone relief IAW PL-058.
23-50-4	Update Boom Microphone relief IAW PL-058.
24-00-1	Delete relief for MCDU 1 CB Ctrl Fail Advisory Message because MCDU 1 CB Ctrl is required to accomplish certain electrical abnormal procedures.
24-00-2	Add NOTE to MCDU 2 CB Ctrl Fail Advisory Message to indicate required compliance with AFM Limitation for 2 operative MCDUs.
24-00-3	Delete Standby Batt from list of overhead switches. Option never certified.
24-20-1	Add NOTE for BPU applicable airplanes, Page shift adds pg. 24-2.

HIGHLIGHTS OF CHANGE

25-10-3	Update CSVS relief for cockpit smoke IAW PL-129. (formerly EVAS)
26-12-1	Update APU Fire Det. Fail Remarks & NOTE for FOPS (SB-34-3040)
26-12-3	Add Remark to Engine Fire Handle Lights to require use of Instrument Flood Lights at night for proper Emergency Procedure handle identification.
26-13-1	Update APU Bleed Det. Fail NOTE for FOPS (SB-34-3040)
26-13-2	Update APU Bleed Det. Fail NOTE for FOPS (SB-34-3040)
26-20-1	Remove (M) procedure and Update Fire Bottle 3 Disch Remarks & NOTE for FOPS (SB-34-3040)
26-20-2	Remove (M) procedure and Update Fire Bottle 3 Disch Remarks & NOTE for FOPS (SB-34-3040). Page shift adds 2 pages to chapter 26.
27-10-2	Add Aileron Trim System to Item and change Remarks for power OFF clearing the CAS Message.
27-52-1	Add Flap Fail Caution Message relief to operate with flaps up. Page shift adds 2 pages to chapter 27.
28-20-1	Add NOTE for BPU (SB-34-3040).
28-20-2&3	Add Remark for Fuel Press Sw Fail to not be displayed from Rev.1a
28-20-4&5	Revise Remarks format to "ON" and NOTE for message prior to engine start only, from Rev.1a.
28-40-1	Change Remarks to allow single point refueling with manual fuel valve control. Add (O) procedure for aircraft defueling procedures.
29-12-1	Add relief for Hydraulic DPI extension from Rev.1a
30-80-2	Change Remarks to not allow operation with no means to detect ice.
31-30-1	Update FDR Category for current approved configuration IAW PL-087.
31-40-1	Add relief for MAU Fan Fail Advisory CAS Message
33-10-3	Add Remarks and second relief to Instrument Flood Lights from Rev.1a
33-20-2	Lighted Passenger Information Signs Remarks changed for occupied Lav.

HIGHLIGHTS OF CHANGE

33-40-8	Update Wing Ice Detection Lights IAW PL-072 and Advisory Ice Detector.
34-00-2 & 3	Add Display Remarks for Electronic Charts considered inoperative.
35-30-2	Add Remarks to PBE relief to placard and stow or remove PBE IAW PL-043.
46-20-1	Add relief for Pilot or Copilot Electronic Charts function.
49-00-2	Add NOTE for BPU applicable airplanes with EFB functions.
49-10-1	Add NOTE for BPU applicable airplanes with EFB functions.
49-10-2	Add NOTE for BPU applicable airplanes with EFB functions.
49-40-1	Add NOTE for BPU applicable airplanes with EFB functions.
57-40-1&2	Clarify applicability of reliefs to spanwise and chordwise sealant from Rev.1a.
73-00-1	Add (O) procedure to Fuel/Ignition Switch Annunciation
73-21-all	Add FADEC TLD relief for all serials aircraft.
74-20-1	Revise Ignition System Item and Remarks for Ignition System not just Igniter
78-30-1,2,3,4&8	Add NOTE to reference AFM NO REVERSE THRUST performance data when operating on Wet Runways from Rev.1a.

U.S. DEPARTMENT OF TRANSPORTATION		MASTER MINIMUM EQUIPMENT LIST
FEDERAL AVIATION ADMINISTRATION		
AIRCRAFT: HAWKER BEECHCRAFT MODEL 4000	REVISION: 2 DATE: 10/01/2012	PAGE NO: VII
DEFINITIONS		

The Definitions must be inserted here in each Minimum Equipment List (MEL) from current FAA MMEL Policy Letter PL-25, MMEL DEFINITIONS in accordance with current FAA MMEL Policy Letter PL-70, DEFINITIONS REQUIRED IN MELs.

NOTE: Remarks terminology is used according to the following:

- “May be inoperative” is used when the fault is an inoperative item or function.
- “May be displayed” is used when the fault is the display of a CAS Message and the CAS Message will remain posted for the duration of the malfunction.
- “Aircraft may be operated” is used when the fault is identified by a CAS Message but the CAS Message will extinguish by required action or may be displayed intermittently even though the malfunction remains.

U.S. DEPARTMENT OF TRANSPORTATION		MASTER MINIMUM EQUIPMENT LIST
FEDERAL AVIATION ADMINISTRATION		
AIRCRAFT: HAWKER BEECHCRAFT MODEL 4000	REVISION: 2 DATE: 10/01/2012	PAGE NO: VIII
PREAMBLE		

The applicable Preamble must be inserted here in each Minimum Equipment List (MEL) from current FAA MMEL Policy Letter PL-34, MMEL AND MEL PREAMBLE or PL-36, FAR PART 91MEL APPROVAL AND PREAMBLE.

Guidelines for (O) & (M) Procedures

The FOEB has identified a need for certain procedures to provide an adequate level of safety while providing relief for some items. These procedures must be established by the operator and may be based on the aircraft manufacturer's recommended procedures, Supplemental Type Certificate modifier's recommended procedures, or equivalent operator procedures. When recommended procedures are published the operator should comply with these procedures. If recommended procedures are not published, the following guidelines delineate the aspects to be considered by the operator in the development of required procedures.

Use Maintenance / Operational / Placarding Procedures Manual document provided by Hawker Beechcraft Corporation for guidelines for (M) & (O) procedures in accordance with Policy Letter 16.

NOTE: Remarks terminology is used according to the following:

- "May be inoperative" is used when the fault is an inoperative item or function.
- "May be displayed" is used when the fault is the display of a CAS Message and the CAS Message will remain posted for the duration of the malfunction.
- "Aircraft may be operated" is used when the fault is identified by a CAS Message but the CAS Message will extinguish by required action or may be displayed intermittently even though the malfunction remains.
