FLYHT Aerospace Solutions Ltd.
Henry.D.Williams@faa.gov

Dear FLYHT Aerospace Solutions Ltd.:

The Aircraft Evaluation Group (AEG) has reviewed your request for Supplemental Type Certificate (STC) Master Minimum Equipment List (MMEL) relief. The AEG finds your relief submission is allowable under existing MMEL relief as shown at the bottom of this letter.

You may incorporate the relief listed below into your Minimum Equipment List (MEL) upon receipt of this letter. The relief granted remains valid indefinitely with possession of this letter unless the relief is specifically revoked or revised by the Administrator.

STC Applicant	FLYHT Aerospace Solutions Ltd.
STC Number	ST03459NY
STC Description	Installation of Automated Flight Information Reporting System (AFIRS) 228 system in accordance with FLYHT Aerospace Solutions, Ltd. installation instructions 151-0058, Rev B, dated December 12, 2013 or later Transport Canada approved revision.
Aircraft Model List	B767-200 B767-300

Sincerely,

Dale Bosselmann
FOEB Chair,
Aircraft Evaluation Group

Live example of how AEG is conveying relief for STCs under current Deviation Authority. Only small adjustments needed to be compatible with Notice.

Changes needed:

-Change MMEL to STC on page 2

-Edit System-Sequence to ready only System (sequencing is done by operator when adding relief to their MEL).

Approved MMEL Relief

System-Sequence	Item	Category	Installed	Required	Remarks-Exceptions
23-25-02-01-01A	Cockpit Dialer Pad	C	1	0	(O) May be inoperative provided alternate procedures are established and used.
23-25-02-01A	Global Voice SATCOM	C	1	0	(O) May be inoperative provided alternate procedures are established and used.
