B/E Aerospace

Dear B/E Aerospace:

The Aircraft Evaluation Group (AEG) has reviewed your request for Supplemental Type Certificate (STC) relief that may be included in an operator's FAA approved MEL. The AEG finds your relief submission allowable as documented in the relief section of this letter. This relief is valid when an operator installs the listed STC on an aircraft that is listed in the Aircraft Model List (AML) below. No other application of this relief is allowed. The STC holder must contact the AEG when the STC is amended, revised or revoked.

Operators may use this relief letter to incorporate the relief listed below into their Minimum Equipment List (MEL) upon publication of this letter and in accordance with the MEL approval process in FAA Order 8900.1. The relief granted remains valid indefinitely with possession of this letter unless the relief is specifically revoked or revised by the Administrator.

STC Applicant	B/E Aerospace
STC Number	ST02876CH
STC Description	Installation of BE Aerospace, Inc., Vacuum Toilet Assembly Retrofit Kit in accordance with BE Aerospace, Inc., Installation Instructions as listed on AML No. ST02876CH, or later FAA approved revisions.
Aircraft Model List	B767-200 B767-300 B767-300F B767-400

Sincerely,

Dale Bosselmann
FOEB Chair,
Aircraft Evaluation Group

Approved STC Relief

System	Item	Category	Installed	Required	Remarks-Exceptions
38	Potable Water Systems	C	-	-	<p>(M) Individual components may be inoperative provided:</p> <p>a) Associated system components are deactivated or isolated, and</p> <p>b) Associated system components are verified not to have leaks.</p> <p>NOTE: Any portion of the system which operates normally may be used.</p>
38	Potable Water Systems	C	-	-	<p>(M) May be inoperative provided:</p> <p>a) System is drained, and</p> <p>b) Procedures are established to ensure that system is not serviced.</p>
38	Vacuum Waste	C	-	-	<p>(M) Individual components may be inoperative provided:</p> <p>a) Associated system components are deactivated or isolated , and</p> <p>b) Associated system components are verified not to have leaks.</p> <p>NOTE: Any portion of system which operates normally may be used.</p>
