

U.S. Department  
of Transportation  
**Federal Aviation  
Administration**

July 8, 2021

*STG Aerospace*  
*Kevin.Lewis@stgaerospace.com*

Dear: *STG Aerospace* :

The Aircraft Evaluation Group (AEG) has reviewed your request for Supplemental Type Certificate (STC) relief that may be included in an operator's FAA approved MEL. The AEG finds your relief submission allowable as documented in the relief section of this letter. This relief is valid when an operator installs the listed STC on an aircraft that is listed in the Aircraft Model list (AML) below. No other application of this relief is allowed. The STC holder must contact the AEG when the STC is amended, revised or revoked.

Operators may use this relief letter to incorporate the relief listed below into their Minimum Equipment List (MEL) upon publication of this letter and in accordance with the MEL approval process in FAA Order 8900.1. The relief granted remains valid indefinitely with possession of this letter unless the relief is specifically revoked or revised by the Administrator.

STC Applicant	<i>STG Aerospace</i>
STC Number	<i>ST04385NY</i>
STC Description	<i>Airbus Litemood Cabin Lighting Upgrade</i>
Aircraft Model List	<i>A330-200, A330-300</i>

Sincerely,  
*James Culet*  
*A330/A340 FOEB*  
Aircraft Evaluation Group
